The Federal Clean Vessel Act directs excise tax dollars, collected on fishing tackle and motorboat fuel, to construct, operate and maintain pumpout stations for Type III MSDs, and dump stations for portable toilets.

By following clean boating practices, we can help improve the quality in Connecticut's waters for swimming, shellfishing, and the enjoyment of our fellow boaters.

For more information about pumpouts, call the Office of Long Island Sound Programs at (860) 424-3034 or the Boating Division at (860) 434-8638
